

SPEC SHEET : GLAND PACKING SERIES : KN5322/PURE PTFE WITHOUT OIL

Material :

Pure PTFE yarn without oil is made of expanded PTFE resin and high temperature-resistant lubricants through special treatment, having a high strength, low creep and good self-lubrication, used for braiding of seal packing or other sealing elements, working in highly dynamic conditions.

Application : The yarns are used for manufacturing of high performance braided packing on diagonal or regular braiding machines.

Not suitable for : Molten alkali metals and fluorine compounds at high temperatures and pressures.

Application Data:

	Rotary	Reciprocating	Valve
Pressure:bar	11	250	180
Speed:m/s	13	2	1.5
pH Range	0 - 14		
Temp. °C	-240 to + 260
